RECYCLE YOUR GEMSTONES

If you have an old piece of jewelry that you rarely wear, consider having it redesigned. For instance, you may want to remove the diamond from an old ring and have it reset as a pendant. Or perhaps you inherited a beautiful red ruby that you think would be put to better use in a ring. In fact, rings can be transformed into bracelets and bracelets see new lives as necklaces. Brooches can become earrings and a string of pearls can be smartly restrung into a more contemporary style. All it takes is a little vision. If you have an old piece that has the potential, consult a jewelry designer and explore the possibilities.

HAIG'S OF ROCHESTER FINE JEWELRY can redesign an old jewelry item for you. Whether it is an out-of-date ring or a pendant that does not fit the owner's personality, our professional, on-site designers can make it new and exciting and with much less cost than starting from scratch. We are conveniently located at 311 Main Street in downtown Rochester. Call us at 248-652-3660 or email us at service@haigsofrochester.com. We want you to see all we have to offer.

Don't miss your chance to see the Big Bright Lights Show and our own spectacular light display featuring a waving Santa, flying reindeer and tumbling packages that come through our window and into the store, now through December 31.

May every holiday be filled with your favorite things from Haig's!

P.S. Old gemstones can also be recut to give them more fire and brilliance.
